

STATEMENT OF PURPOSE

RS20276

This bill will add a provision to Idaho drainage district law to provide a means for drainage districts to consolidate. The method of consolidation using the court system provided in the bill is similar to the existing method of forming such drainage districts.

FISCAL NOTE

There is no known fiscal impact on the state general fund. The fiscal effect of this bill on the local drainage districts may vary by application, though it is anticipated that the law will allow drainage districts to consolidate and to recognize operation efficiencies and lower costs.
